

EDITORIAL PREFACE

It is my pleasure to present the eighth volume of the *Jordan Journal of Biological Sciences* (JJBS) to the audience. JJBS is a refereed, peer reviewed quarterly international journal issued by the Jordanian Ministry of Higher Education and Scientific Research Support Fund in cooperation with The Hashemite University, Zarqa, Jordan. This journal publishes papers in Biological Sciences encompassing all the branches at molecular, cellular and organismal levels.

A group of distinguished scholars have agreed to serve on the Editorial Board. Without the service and dedication of these eminent scholars, JJBS would have never existed. Now, the Editorial Board is encouraged by the continuous growth of the journal and its formation into a true multidisciplinary publication. I am also honored to have the privilege of working with all members of the international advisory board served by a team of highly reputable researchers from different countries across the globe. I am also delighted with our team of national and international reviewers who are actively involved in research in different biological sciences and who provide authors with high quality reviews and helpful comments to improve their manuscripts.

JJBS has been indexed by SCOPUS, CABI's Full-Text Repository, EBSCO, Science Citation Index-Zoological Abstract and is currently under evaluation to be indexed in Thomson Reuters, National Library of Medicine's MEDLINE\ Pub Med system and others.

I would like to reaffirm that the success of the journal depends on the quality of reviewing and, equally, the quality of the research papers published. Five articles from the International Symposium of International Humboldt Conference "Building International Network for Enhancement of Research in Jordan" at Princess Summaya University for Technology in April 2014 appear in this issue. This Conference was chaired by HE Prof. Khaled Toukan, run by eight Jordanian Universities, Jordan Atomic Energy Commission, Jordanian Club of Humboldt Fellows. This Conference was mainly supported by the Alexander von Humboldt Foundation, Jordanian Scientific Research Support Fund, King Abdullah II for Development and Abdul-Hameed Shoman Foundation. The journal invites submission of high quality manuscripts for publication.

In addition to being a hard-copy journal, JJBS is an open access journal which means that all contents are freely available the users and their institutions free of charge. Users are allowed to read, download, copy, distribute, print, search, or link to the full texts of the articles in this journal without asking for prior permission from the publisher or the author. This is in accordance with the BOAI definition of open access.

At the end of this preface, I would like to thank our readers and authors for their continuing interest in JJBS, and each member of our editorial and review boards for their continued hard work, support and dedication, which made it possible to bring another new issue of JJBS to the multidisciplinary international audience. My thanks are also extended to the Hashemite University and Jordanian Scientific Research Support Fund for their continuous support to Jordan Journal of Biological Sciences. I very much appreciate your support as we strive to make JJBS one of the most leading and authoritative journals in the field of Biological Sciences.

March, 2015

Prof. Khaled H. Abu-Elteen
Editor-in-Chief
The Hashemite University, Zarqa, Jordan
