

CONTENTS

Original Articles

- 563 - 569 Anti-obesity Activity of Hexane Fraction and Fucoxanthin Isolate from *Sargassum polycytum* as an Inhibitor of Pancreatic Lipase Enzyme *in Vitro*
Novy Dwi Susilowati, Etty Sulistyowati, Aninditia Sabdaningsih, Lia Kusmita
- 571 - 579 Ethanolic Extract of *Allium cepa* mitigates the Effects of Ethanol-Induced Renal and Hepatic Damage and Exerts Antioxidant Activity in Wistar Rats: A Biochemical Study
Nathan Isaac Dibal; Martha Orendu Oche Attah; Luteino Lorna Hamman ; Fatimah Buba ;Hauwa Hajjagana Laminu ;Emmanuel William, Zainab Dauda Inuwa ; Lydia John ; Fatima Saleh Abdulrahman ; Musa Garba Abubakar
- 581 - 592 Potential Resistance Genes Conferred Tolerance to Fusarium Crown Rot in Wheat
Chahinez DJEBAILI, Saliha ATTAB
- 593 - 600 Enhanced Combined Antibacterial Action of *Coriandrum sativum*, *Murraya koenigii*, and *Piper nigrum* Against Uropathogenic Bacterial Strains
Mahnoor Nadeem, Muhammad Wasim
- 601 - 605 *FTO* rs9939609 Polymorphism is Associated with Type 2 Diabetes among Jordanians
Manar F Atoum
- 607 - 612 Genetic diversity of *Scopellaria marginata* (Cucurbitaceae) with varied fruit shapes based on random amplified polymorphic DNA (RAPD) molecular markers
Fifi Mar'atun Solihah, Estri Laras Arumingtyas, Turhadi
- 613 - 617 Unlock the potential of Magnetic Copper-Iron based Nanoparticles: Green Synthesis, Characterization, and Anti-Tumor Activity Comparison between ternary (CuFeO₂) and spinel (CuFe₂O₄) copper iron oxide nanoparticles
Afnan Al-Hunaiti , Tuqa AbuThiab, Amer Imraish
- 619 – 624 Molecular Characterization of Quinolone Resistance Gene in *Pseudomonas Aeruginosa* Isolated from Stored House Hold Water in Karu Metropolis, Nasarawa State.
Monday, Jezhi Fenu; Yakubu Boyi Ngwai; Istifanus, Nkene Haruna; Olajumoke, Florence Bolarinwa; Rebecca, Oziohu. Omosimua
- 625 – 630 Association of Methylenetetrahydrofolate Reductase Gene Polymorphisms with increased Risk of Multiple Sclerosis in a Sample of Jordanian Patients
Ebtehal A Al-Zalabieh and Salwa M Bdour
- 631 – 639 Secoisolariciresinol Diglucoside as a Potential Hepatoprotective Agent Against Mercuric Chloride-Induced Oxidative Damage
Evan Ahmad Khalil, Assia BenBraiek, Israa Yousef , Esra`a H. Darweesh, Inas almazari, Razan N. AlQuraan, Tareq Nayef AlRamadneh
- 641 – 646 Evaluating the Anticancer and Antioxidant Potentials of Star Anise (*Illicium verum*) Extract Against Ehrlich Solid Tumor Induced Kidney Toxicity, Oxidative Stress and Inflammation
Fadi Sawaqed, Afaf El-Atrash, Maha Elkholy, Ehab Tousson, Youssef Hussein
- 647 – 654 Upregulation of Apoptotic Markers p53 and Caspase-3 in Cardiac Tissue of Diabetic Rats
Kawther Amawi , Duaa M. Alsholi , Waed Bani Salameh, Athar Mazen Abdallatif , Inas Almazari, Mahmoud A. Alkhateeb
- 655 – 660 Detection and Prevalence of Pathogenic *Arcobacter* Species (*A. butzleri* and *A. cryaerophilus/A. skirrowii*) in Chicken Samples Using Multiplex Real-Time PCR
Marwan M. Abu-Halaweh
- 661 - 667 An Epidemiological and Therapeutic Study of the *Echinococcus granulosus* Parasite in Sheep of Anbar Province, Iraq
Suad S. Shahatha, Ayad J. Dhulkefl , Nihad M. Abood , Mohammed O. Mousa , Othman M. Othman , Fadhil H. Mukhlif
